

WHAT'S NEW 2015

spec

URBAN

Always the talk of the town, Urban is now sparking more conversations with its newly introduced 22" width. Like the 18.5" wide Urban, the 22" design supports up to 500 lbs. Choose from a DuraSpec poly seat or an upholstered seat and combine with either a plastic, upholstered or wood back.

Plus, Urban's unique DuraSpec poly seat is now available in Sterling Grey on both 18.5" and 22" widths.

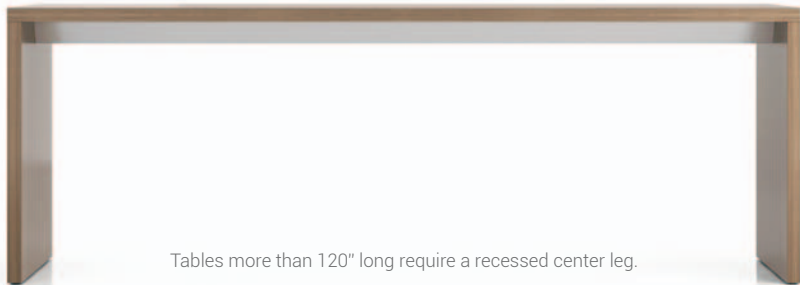

ENDZONE

Extend the line of your designs with EndZone's lengthened size selections. Our contemporary Collaborative table now offers lengths up to 120" without a center leg. Tables are available up to 216" with a recessed center leg.

EndZone's range of finish selection is also growing. Veneer finishes enhance upscale meeting spaces, while 2mm wood grain edges increase durability in high-traffic areas.

Standard Lengths from 72"–216"

Tables more than 120" long require a recessed center leg.

BEHAVIORAL HEALTH

Engineered for strength and designed for comfort, Dignity2 now offers the option to extend side panels to the floor—available upholstered or in laminate.

Replaceable arms can be specified in polyurethane or wood, or choose solid surface arms for extreme durability!

NEW VINYL DECALS

Add a splash of color or detailed graphics to Snowball 3 or Urban wood backs with these new vinyl decals. They can be applied in any design or color to brighten a space or help create a branded environment.

OCCASIONAL TABLES

With our ability to add integrated power to both Drum and Cube occasional tables, public areas have never been more functional! Add a dash of bold design with the new oval-shaped Drum, an occasional table as unique as its space.

2MM WOOD GRAIN EDGES

Match your laminate or veneer top with one of seven new wood grain edges. Designed to match our seven standard stains, the wood grain 2mm PVC edge adds durability to any table. Available for standard table tops or EndZone, these new finishes provide even more options!
