

**Model** 2MM Bio

**Benefits**

- Tough and durable
- Impervious to moisture
- Mechanically and thermally stable with a low smoke index
- Contains no know hazardous chemicals and emits no known toxic VOC's
- May be recycled or disposed of in an environmentally safe manner
- Supports LEED® certified projects in categories of rapidly renewable (MR6) and low emitting (EQ4.5) materials.

88% biobased carbon content independently tested ASTM D6866 standard. Proposed USDA biobased standard - 51%

**Process** 2MM edges are made from pellet material that is melted and extruded through a die-head profile. The edge is adhered to the core material and trimmed into place with a state of the art edge bander, resulting in a virtually pick proof edge.

**Content 2MM BIO** 2mm Bio edge is square, minimizing the gap between the tables when placed together. This edge has a bio-based content of 88% that is made from rapidly renewable corn. The portion of the corn used is a waste byproduct and therefore not taken from food stock. Contains no hazardous chemicals and emits no toxic VOC's and is recyclable. 2mm edge has the impact durability of PVC with a profile similar to self edge. Available in 38 solid colors.
