

**WHAT'S NEW** 2017

**spec**

## Tailor Makes the Cut

Tailor makes a striking impression while keeping the requirements of hard-use applications in mind. Inspired by residential and hospitality designs, this lounge collection is well suited to corporate lobbies and healthcare facilities alike. Create stunning environments with freestanding lounge seating or tailor them to fit your needs using any number of versatile modular configurations.

## **Annex** Puts Creativity on the Table

Bring an inviting atmosphere to workplace meetings with Annex.

Featuring a 2" built-up edge and a strikingly sturdy base, Annex is available in seated or standing heights. Specify from a wide range of sizes and finishes, and add power and data for added functionality. The casual design lends itself perfectly to productive teamwork!

# **Hardi**—Durability that Can't Be Beat

Made from rotationally molded polyethylene, Hardi's construction is virtually indestructible. The one-piece chair is a breeze to clean and extremely robust. Available in Lounge and Dining designs, the Hardi Series gives specifiers the ability to bring Spec into more Behavioral Health applications. Choose from six inviting colors to create a warm and welcoming environment.

## Cooper Dwight—Now for Behavioral Health

Our timeless Cooper Dwight chair can now meet Behavioral Health needs. The added arm panel extends all the way to the floor to reduce ligature points and can be specified with laminate or upholstery. Available with or without arms, Cooper Dwight HD comes standard with tamper-proof fasteners, added weight and nickel-plated Loctite glides. Kydex® arms are also available.
