Alternative Size & Shapes Available

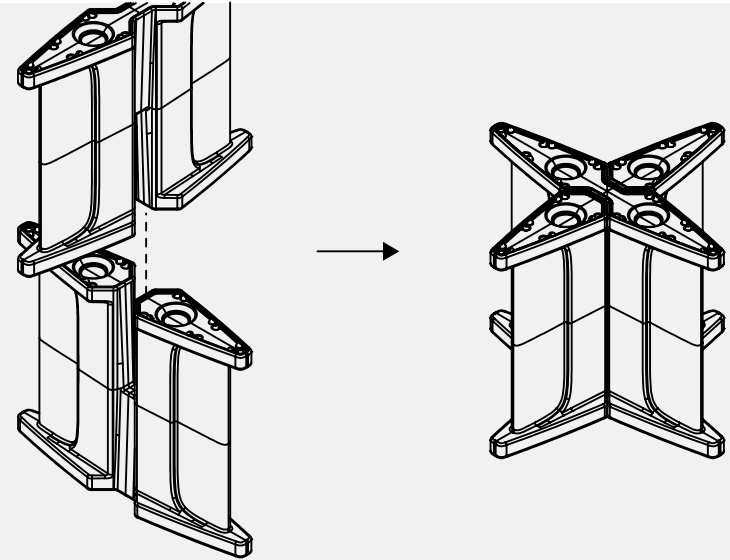

HARDI ENDURANCE X-BASE TABLE INSTALLATION INSTRUCTIONS

1.

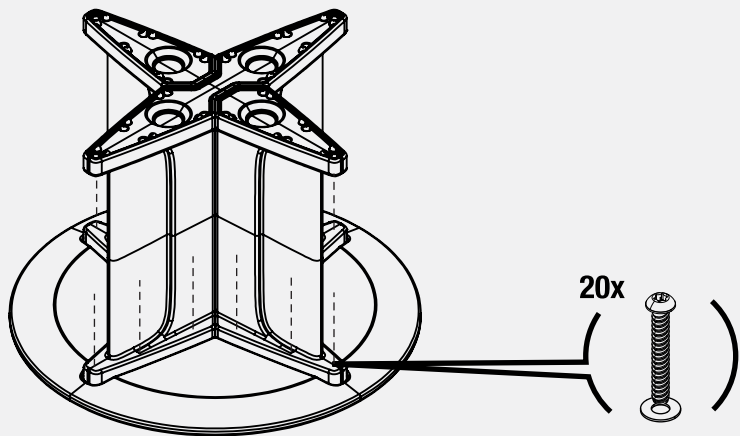

Drill through holes into the 10 bolt locations on the top of one of the leg pieces. Flip the leg over and drill through holes into the 10 bolt locations on the bottom of the leg. Repeat this process for the second leg.

2.

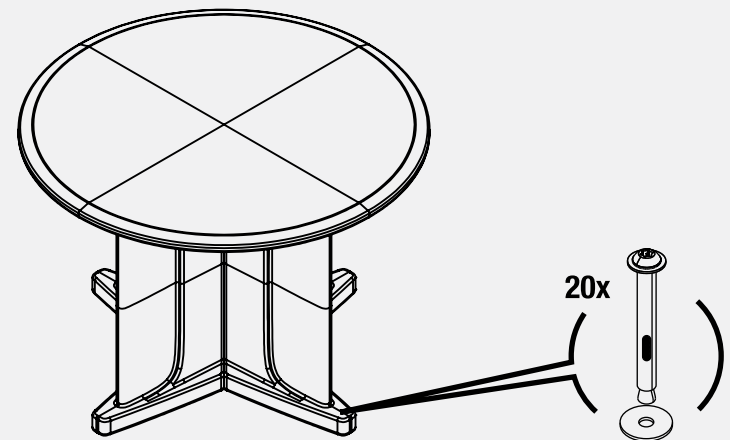

Slide the two leg pieces together using center slots.

3.

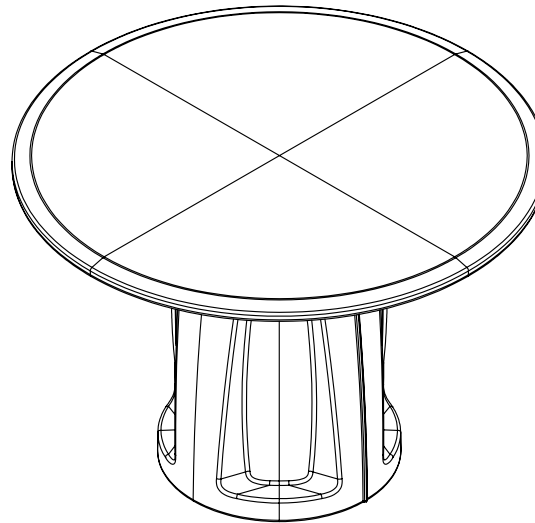

Flip table top over. Place assembled legs into pocket on bottom side of table top. Insert and tighten each table top screw 3-5 turns past finger tight.

4.

Turn over table. Position table in desired location. Using a pen or pencil, mark the leg mounting location onto the floor. Drill holes in the locations where you marked the center of the floor mount hole. Hole depth should be 2.0" deep MINIMUM. Install concrete anchor and bolt to table to floor.

HARDI ENDURANCE CYLINDER-BASE TABLE BALLASTING INSTRUCTIONS

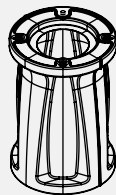

Not Included:

1x
Screwdriver
With Tamper Resistant Torx Bit

Weighted Ballasts

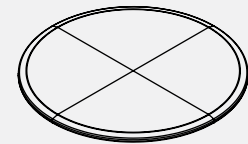

Included:

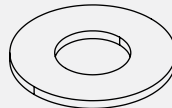

1x
Cylinder table base

1x

4x
5/16" - 18 x 3"
Security Torx Bolts

4x
Ballast Port Door Screws

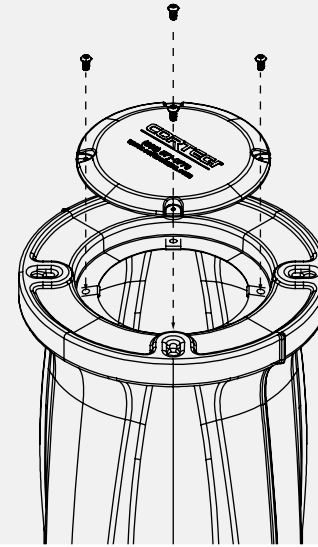

HARDI ENDURANCE CYLINDER-BASE TABLE BALLASTING INSTRUCTIONS

1.

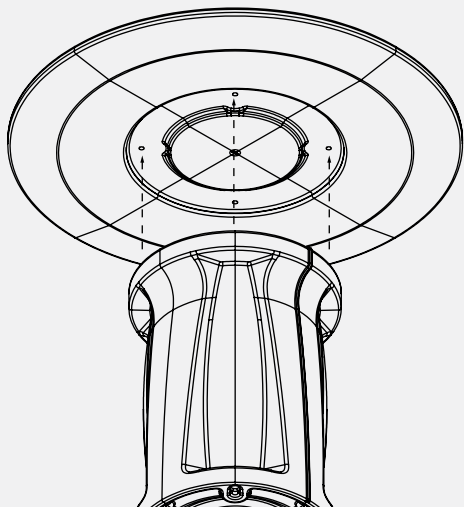

Position table in desired location. Remove the four panel screws using T27 Torx Bit Screwdriver.

2.

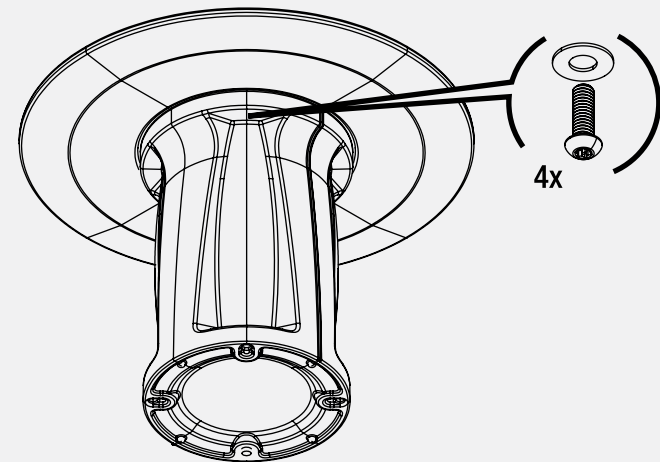

Add weighted ballasts into cavity and replace and ballast door and panel screws. Tighten panel screws 3-5 turns past finger tight.

3.

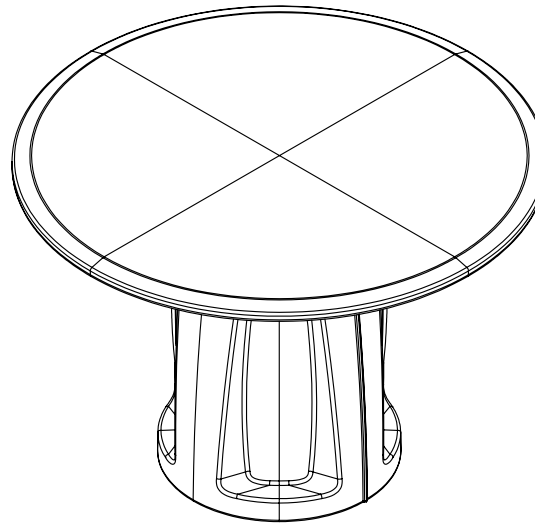

Align the table base to the center of the table top. Check fitment and make any necessary adjustments.

4.

Insert and tighten each table top screw and washer 3-5 turns past finger tight.
