Look at Meetings From a Different Angle

Askew projects a new angle at which we interact in meeting rooms and boardrooms. Available in a variety of large-scale lengths and widths, Askew's name comes from a unique, outward skewed base shape that creates a sense of space with its open design.

Paint the Town Red

With 76 base colors, nine standard wood stains, stain-to-match at no upcharge, over a dozen edge styles and an endless selection of laminates, Askew is a designer's chance to make a mark where it matters.

Askew *Top Finish:* Formica, 839-58 Stop Red; *Frame:* RAL 3002.
Jazzy *Shell:* Wilsonart, 1595-60 Black; *Frame:* RAL 9005.

A variety of power modules are available to suit all tech-savvy needs. The wire manager adheres magnetically to the base.

Add an edge to Askew with a reverse knife profile table top. A clear coat is applied to the exposed Baltic Birch ply.

As the table-top length grows to 144" and beyond, a third, symmetrically shaped center base is added to the table.

Edge Profiles

Laminates

Select from our 15 standard laminates or choose from any standard Wilsonart, Nevamar, Formica, Arborite and Pionite laminates at **no upcharge!**

Veneer, 2MM Woodgrain and Hardwood Edge Finishes

Veneer and hardwood edges are available in nine standard wood stains. Stain-to-match is available at no upcharge. 2mm Woodgrain edges match the standard stain offering.

Frame, PVC Edge, and 2MM Bio Edge Finishes

76 Spectone colors from our line of powder epoxy coatings, including five textured finishes or chrome. 38 matching PVC Flat and 2mm Bio Edge finishes are also available.
