BEHAVIORAL HEALTH SOLUTIONS

Balancing Function with Comfort

At Spec, We've Been Leaders in Behavioral Health for More Than Two Decades

We've furnished countless facilities—supervised, semi-supervised, unsupervised areas—with designs that have care at their core and warmth in their style.

At Spec, we view behavioral health as a continuum of care. In collaboration with designers, facility managers, and caregivers, we have developed—and continue to develop—our robust Behavioral Health collection to respond to the needs of patients within these spaces, and in more generalized health and wellness facilities.

We consult with facility managers and caregivers to draw on their expertise, combining it with our own to create environments that are durable, inviting, customizable, and, above all, safe.

Dignity2 Upholstery: Momentum, Canter, Lucid; Arm Cap: Sterling Gray, Frame: Silver.

Dignity2 Bariatric Upholstery: Momentum, Canter, Earth; Arm Cap: Sterling Gray, Frame: Silver.

Drum HD Top: Corian, Cameo White; Side: Wilsonart, 7937-38 River Cherry.

Snowball 2 HD Upholstery: Momentum, Canter, Earth, Frame: Silver.

Apricus (Front Cover) Upholstery: CF Stinson, Shimmy, Anise, Frame: RAL 7043.

Dignity Upholstery (Blue): Momentum, Epic, Azure; Upholstery (Beige): Momentum, Silica Leather, Almond; Frame: Taupe.
Dignity2 Upholstery: Momentum, Silica Leather, Almond; Arm Cap: Taupe; Frame: Silver.
Oval HD Top and Side: Wilsonart, 7938-38 New Age Oak.

Soothing and Secure

Don't be fooled by the residential feel—Dignity and Dignity2 are soft-seating solutions designed specifically for behavioral health applications.

Versatile Design

Freestanding or connected, both Dignity and Dignity2 can be configured in multiple ways to accommodate individual and group needs.

Considered Care

For easy cleaning, choose laminate on the inner arm panels to maintain a gap between the panels and the seat, or choose upholstery to reduce the gap.

Sturdy, Safe, and Durable

Engineered to last, the entire Dignity series features springless seats and weighted construction to ensure comfort and security, while the contoured design eliminates sharp edges for a safer, more welcoming space plan. Heavy-duty tables can be specified with additional weight or solid-surface tops.

Dignity2 (Single Seat Is Shown with Extended Side Panels) Upholstery: Momentum, Row, Oasis; Side Panel: Wilsonart, 7960K-18 Studio Teak; Arm Cap: Sterling Gray; Frame: RAL 7038.
Drum HD Top: Corian, Savannah; Side: Wilsonart, 7960K-18 Studio Teak.

One-piece polyurethane arms on Dignity chairs provide a softer, residential look. Available in black, sterling gray, or taupe.

Optional KYDEX® arm caps on Dignity2 are a durable, pick-proof solution that withstands harsh cleaning products.

Specify a steel plate on the underside to eliminate pass-throughs. The steel plate comes standard with small perforations to avoid trapping fluids.

An optional wall-saving frame is available on Dignity2 designs.

Apricus Upholstery: CF Stinson, Lorelai - MB Melon; Foot and Seat Pan: RAL 7043.
Drum HD Top and Side: Wilsonart, 7960K-18 Studio Teak.

Toughness, Reinvented

The perfect harmony of style and resilience, the lightweight design of Apricus is cleverly crafted to exceed expectations in Behavioral Health settings. The slimmed down scale feels homelike, and offers room for personalization in the fabric selection and metal color accent, without compromising on durability. Incorporating a lounge-style seating posture, Apricus ensures comfort, safety and style for a diverse range of users.

Maximized Product Longevity

A simplified approach to field-replaceable components enhances each chair's longevity and reduces downtime.

Heavy-Duty Strength

Apricus offers an unequivocally strong build, achieved by applying the invaluable insights we've gained from the success of our award-winning Dignity chair into a new design. Enhancements include a reinforced connection between the seat and back as well as pick-proof KYDEX® arms.

Apricus Upholstery: CF Stinson, Bijou, Citrine; Foot and Seat Pan: RAL 5024.

The standard side panel on Apricus features a curved metal base that comes in any of our standard 76 Spectone colors.

Available with a panel that extends to the floor for reduced pass-throughs, the flat metal base can also come in any Spectone color.

KYDEX® arm caps are extremely durable. The thin profile is elegant and complements the sophisticated look of Apricus. Available in black or sterling gray.

Tailor HD Roto Upholstery (Blue): Morbern, Vitality, Hot Spring; Upholstery (Yellow): Morbern, Vitality, Blonde; Foot: RAL 7037; Frame: RAL 7037.
Drum HD Top: Corian, Blue Spice; Side: Wilsonart, 7949K-18 Asian Night.

The durable, rotationally molded polyethylene foot is tamper-proof and waterproof—plus, it's tough enough to resist harsh cleaning solutions.

Arm panels extend fully to the floor to address ligature concerns while ensuring a wall-saving design.

A standard steel plate eliminates all pass-throughs. Small perforations between the seat and back avoid trapping fluids.

A unique, optional insert further prevents pass-throughs by closing the gap between the underside of seat and floor.

Tailor the Look

The welcoming look of Tailor HD Collection creates stunning spaces while addressing the requirements of behavioral health environments. Tailor HD Roto is available with one, two, or three seats—as well as a bariatric model—and comes standard with a wall-saving frame.

Heavy Duty and Lightweight

Tailor HD Sled's streamlined design sleekly incorporates added-weight, fully welded frames and tamper-resistant fasteners. By strategically selecting safety features, we can ensure reliability while maintaining exceptional value and design continuity throughout your behavioral health facility.

Tailor HD Sled: Upholstery (Brown): Momentum, Vanguard CV, Cave; Upholstery (Beige): Momentum, Whit EPU, Platinum; Frame: RAL 7036.
Drum HD Top and Side: Wilsonart, 7949K-18 Asian Night.

Single-sewn seat-and-back upholstery removes pass-throughs and concealment areas.

The sled base, which comes standard in a non-wall-saving frame, provides increased stability and ensures no protruding legs or hardware.

The underside is covered with a fully welded bottom plate, closing off access to hardware and removing the ability to hide contraband.

Hardi Stacker Finish: Fog Gray.
Hardi Endurance X-Base and Endurance Cylinder Base Tables Finish: RAL 5014.
Hardi Rocker Finish: RAL 7037 and RAL 7044.
Hardi Endurance 4-Shelf Wall Mount Unit Finish: RAL 7044.

Shallow hand grips make Hardi designs difficult to pick up yet easy to adjust while seated.

Nylon glides are optional. Hardi designs specified with glides can be fastened to the floor or ganged together.

Hardi Dining without arms is available in a child-friendly size with seats standard at 15" high.

Style for Challenging Spaces

Hardi's award-winning design offers the highest level of safety. A durable polyethylene construction makes chairs and tables extremely robust and a breeze to maintain. Hardi's elegant contour creates a welcoming environment for patients and caregivers while reducing ligature and safety concerns.

Thoughtful, Safe Designs

Considerate patient room designs include choosing products that are not only safe but comfortable as well. Our seating, bed, casegoods, and table designs feature soft, rounded edges, making them a welcome choice for unsupervised areas. Select Hardi products can be floor-mounted or wall-mounted to prevent movement.

Hardi Club Finish: RAL 5014.
Hardi Endurance Wall Mount Desk and Endurance Open Chest Unit Finish: RAL 7044.

An optional tamper-resistant, seam-sealed foam mattress can also come with a built-in pillow.

Most Hardi designs can be weighted on site with sand. A spun-in cap on the underside closes the opening, secured with tamper-proof fasteners.

The one-piece construction prevents concealment.

Adapted for Heavy Duty Use

Spec's most popular healthcare products have been adapted to meet the needs of supervised and semi-supervised behavioral health environments. The Heavy Duty line, denoted by the "HD" marker, boasts enhanced durability while seamlessly integrating with our standard healthcare furniture collection.

Calvin HD Seat Upholstery: CF Stinson, Sentry-HC, Patrol; Back Upholstery: CF Stinson, Sentry-HC, Aura; Arm: Sterling Gray, Frame and Side Rail: Silver.
Drum HD Top and Side: Wilsonart, D92-60 Dove Grey.

Snowball 2 HD Upholstery (Blue): Morbern, Vitality, Hot Spring; Upholstery (Green): Morbern, Vitality, Willow; Frame: Silver.
Trumpet HD Top: Wilsonart, 7937-38 River Cherry; Edge: 2MM River Cherry; Base: Silver.

Each product is engineered with core safety features, including scalable weight additions tailored to client requirements, sled and H-base frames to eliminate protruding hardware risks, and tamper-resistant fasteners. With Spec's specialized Heavy Duty series, you can prioritize durability and design continuity without ever compromising on the wellbeing of patients and staff.

The Beauty Is in the Details

Smooth edges, tamper-proof fasteners, and optional added weight are integrated into a spectrum of attractive designs that cater to the different needs and styles of these environments, all accompanied by a lifetime structural warranty. All of our seating designs have been dynamic load tested to at least 500 lbs. Our other standard design considerations can be seen here.

Several designs feature optional weighting to reduce ease of movement.

Tamper-proof fasteners are standard on all designs.

Zippers are secured and pulls are removed.

Seats feature springless construction.

Customized solutions are available.

Separate seats and backs are available on most models.

Nickel-plated glides are secured with Loctite®.

Optional floor-mounting straps are available.

All metal connection points are fully welded.

Make It Your Own

Spec has been developing solutions for behavioral health facilities throughout North America for over 25 years. We recognize the unique challenges that behavioral health facilities present to both caregivers and the design community.

Our offering doesn't stop here—each product family offers a breadth of configurations and options to suit your unique requirements. Contact us today to discuss how Spec can help tailor a solution to meet your specific requirements.

Laminates

Select from our 15 standard laminates, or choose from any standard Wilsonart, Nevamar, Formica, Arborite, or Pionite laminates for no extra charge.

Wood Arm Cap Finishes

Wood arm caps are available in nine standard stains. Stain-to-match is available for no extra charge.

Metal Finishes

Frames can be finished in 76 Spectone colors from our line of power epoxy coatings, including five textured finishes.

Polyurethane Arm and Arm Cap Finishes

Choose from three standard colors.

Hardi Finishes (Excluding Stacker)

Create a welcoming environment with Hardi by choosing from six soothing colors that match our Spectone RAL offering.

Hardi Stacker Finishes

Choose from a colorful palette of finish options for Hardi Stacker.
