## Time for a Change

As we meet in classrooms, offices, and other areas where collaboration occurs, it's essential to find spaces that allow for easy reconnecting and efficient workflows. This is where Latch comes in. Latch enables users to reconfigure work areas to suit their needs. A group collaboration area can quickly become a spot for heads-down work by simply connecting or disconnecting products. Tables are available in half-moon and rectangle shapes with a variety of lengths. The collection includes a media wall, shelving unit, whiteboard, and hospitality cart. The bookshelf comes standard with floor-mounting straps, and other Latch products come standard with casters for quick reconfiguration.

Latch is made for reconfiguration. Easily transform your space into a training or presentation setup by disconnecting and rearranging products.

Media walls, tables, whiteboards, and bookshelves connect, allowing you to turn a training setup into a meeting huddle in a matter of minutes.

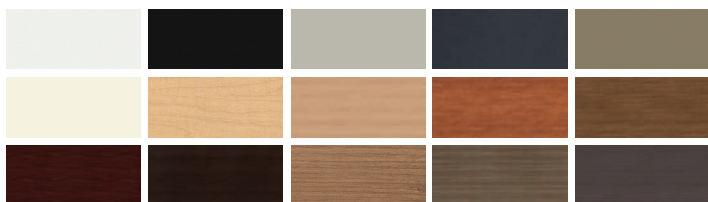

# Make It Your Own

The Latch collection of products boasts versatility that can adapt to many different environments. Choose one Latch product or choose them all, and have fun customizing Latch with finish options—from laminates to PET panels, edges, and more!

## Laminates

Select from our 15 standard laminates, or choose from any standard Wilsonart, Nevamar, Formica, Arborite, or Pionite laminates for no extra charge.

## PET Acoustic Panels For Media Wall

Made of 100% PET fiber, 50% of which is recycled, the 12mm thick acoustic panels are available in eight standard colors, and six additional colors are available with an extended lead time.

## Connecting Bar

Latch tables, media walls, and bookshelves come standard with a connecting bar on straight sides.

## Connecting Clips

Two Latch connectors come standard with each product.

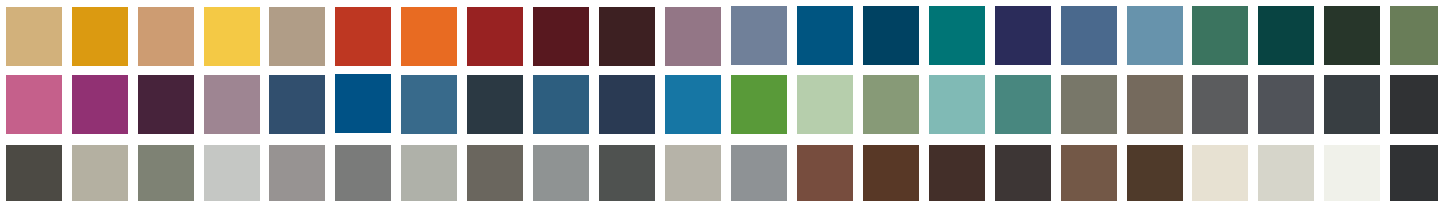

## Wire Management

A vertical magnetic wire manager is available for the Latch table and media wall.

## Metal and Edge Finishes

Frames and surfaces can be finished in 76 Spectone colors from our line of powder epoxy coatings, including five textured finishes. Also available are 38 matching 2mm Bio Edge finishes, and nine woodgrain 2mm PVC edge finishes.
