Power Modules

Villa™ Cove Interact IV G2

Metal Finishes

76 Spectone colors from our line of powder epoxy coatings, including five textured finishes. 38 matching PVC and 2mm Bio Edge finishes are also available.

MANHATTAN

A Design Classic from the Start

Manhattan is a versatile collection of tables that offers the utmost functionality in a wide variety of applications. Available as fixed or mobile, folding or flip top, electric height-adjustable or with a footring, Manhattan can be specified for individual learning or interactive group environments. When the configuration will be permanent, specify shared legs for a cost-effective solution.

Tops can be specified in veneer or laminate, and with a wide selection of edge details. Add power modules, wire managers and modesty panels to create the perfect table solution—from the training room to the boardroom.

Flip top tables are ideal for spaces that require frequent reconfiguration. Flip tops lock into an upright position, nesting tightly when not in use.

Top with Self Edge and Double Column T Base; Jazzy Chairs; Tailor Booth; Sidekick: Credenza

Top with HF Edge and T Base with Rectangular Vertical Wire Managers and Casters; Eighteen5 Nesting Chairs

Top with 2MM Bio Edge, Shared T Base with Oval Vertical Wire Managers and Resin Modesty Panel; Urban Chairs

Reaching New Heights

Go from sitting to standing in seconds at the touch of a button. Manhattan can be specified with a powered height-adjustable mechanism. Available with a Rectangular Column T Base in black or silver, the height can be adjusted from 24" to 42".

Control push button can be mounted right or left.

Footring is located 7.25" from the floor and inset 6" from the table edge.

Perfect for Collaborating

Manhattan with Footring can be freestanding or placed adjacent to the wall. Tops are available in a variety of shapes, sizes and finishes. When powering up, wires are concealed by feeding them through the table legs.
