 Healthcare - Children's Hospital

PROJECT SPOTLIGHT

WHIMISCAL HOSPITAL BUILT FOR CHILDREN

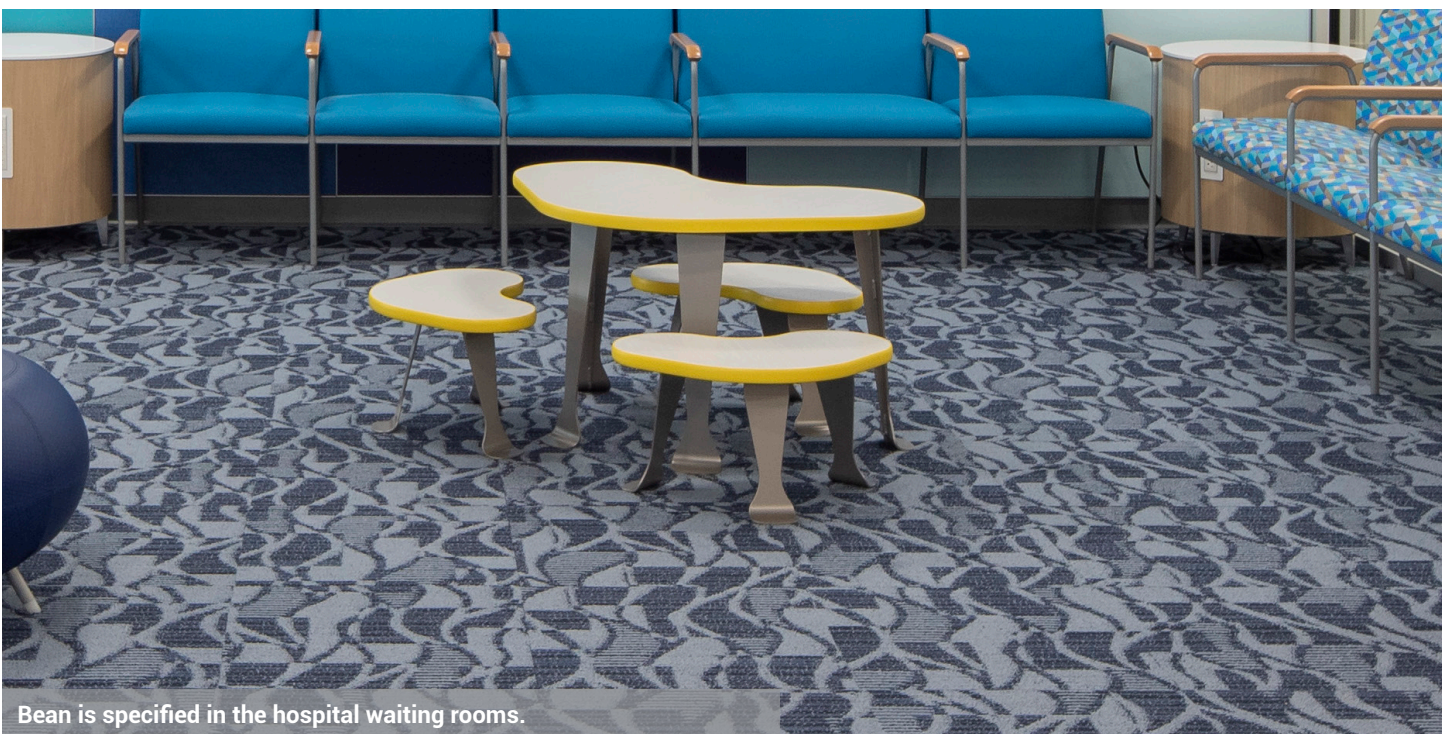

When it comes to child health, Ohio is ahead of the rest with a new state-of-the-art hospital that caters exclusively to children. Bright colors and whimsical wall graphics dominate the facility and can be seen through the floor to ceiling windows that make up the main entrance.

Bean is placed in the lobby areas throughout the hospital.

The furniture that goes into child health spaces must reflect the needs of children. Appropriately named for its fun shape, Bean seating series is kid-size by design. Endless color possibilities allow Bean to be as imaginative as needed.

Waiting areas, lobbies, and child play areas benefit from furniture that allows kids to be kids and parents and caregivers moments of respite, especially in healthcare environments.

Bean is specified in the hospital waiting rooms.
