PROJECT SPOTLIGHT

PARKLAND HEALTH & HOSPITAL SYSTEM

Cooper Bala Benches

Parkland Health & Hospital System first opened its doors in 1894 and is now one of the largest public hospital systems in the United States, licensed for 861 adult patient beds and 107 neonatal patient beds and more than 10,000 employees. The hospital averages more than 1 million patient visits annually.

The new Parkland hospital will officially open its doors to the 2.1-million-square-foot facility to patients in late August 2015. The state-of-the-art 862-bed, 17-story structure will replace the aging Parkland Memorial Hospital that opened in 1954. The latest healing concepts, quality and safety design features have been incorporated into the all-digital acute-care facility making it a premier health care setting for Dallas County residents. At nearly twice the size of the current hospital, the new Parkland has been designed to meet the ever-changing needs of Dallas County – one of the largest, fastest-growing regions in the country.

A Glimpse of the Outdoor Wellness Garden

The Wall of Donors

A Sunlit Hallway

Hallway with Patient Rooms

The 862 single-patient rooms with private bathrooms and space for families and visitors offer just one example of the improvements for patients in the new hospital. The new campus also promotes an environment of healing by incorporating natural lighting and a wellness garden. One of the many distinct design features is the image of trees on the lobby glass. When seen closely, the trees are actually made of the names of the thousands of Dallas County citizens who support Parkland.

Unique Design

Final Touches

The Beautiful Sky Reflecting Facade of the Hospital

An Areal View of Parkland

Every aspect of the new Parkland hospital was thoughtfully planned to enhance the patient experience but still preserve safe, quality care. Parkland's leaders traveled across North America to visit other successful hospital building programs. What they learned from those experiences will give Parkland's patients the best medical facilities Dallas County has to offer.
