TOP OF THE CLASS

Products for Learning Spaces

Prioritizing Education

At Spec, we understand the value of education and the importance of creating comfortable, stylish, safe, and highly functional learning environments.

As a leader in the contract furniture market since 1991, we continue to support, grow, and revisit the ways in which our furniture solutions benefit and solve problems for educational facilities. Creating furniture that lasts for generations, enhances visual identity, and elevates the learning experience is how we strive to serve this growing market.

This lookbook features a selection of Spec products in various higher education environments.

For a full breakdown of the product finishes and fabrics shown in the images in this lookbook, please see the appendix on p. 66.

Let Spec Be Your Guide

Thank you for joining us on a visual tour of a higher education facility. As you browse through the next pages, we will show you some of the ways our furniture solutions—and our design and manufacturing capabilities—can assist you with scholastic space planning. Let's dive in and discover the boundless potential of campus environments that truly make a difference!

Classroom	8	Cafeteria	40
Lecture Hall	12	Event Space	44
Computer Lab	16	Faculty Office	48
Lab & Makerspace	20	Residence Hall Lounge	52
Learning Commons	24	Statement of Line	58
Student Union	28	Finishes & Edge Profiles	60
Atrium Study Space	32	Warranty	65
Corridor	36	Appendix: Image Finishes	66

Clicking on this symbol throughout the lookbook will take you to appropriate information on the featured product on specfurniture.com.

Classroom

The classroom is a space where the next generation of leaders thrives today. The ability to adapt a learning space to various teaching methodologies, collaborative projects, and technological demands is paramount. Furniture solutions that are versatile and movable can create an environment conducive to both focused study and dynamic interaction, fostering a more effective educational journey.

Next spread: Manhattan table

Lecture Hall

A staple of any higher education facility, the traditional lecture hall brings a significant number of students together all at once. A thoughtfully designed lecture hall maximizes capacity by taking advantage of every inch of the floorplate through custom-fitted tables while ensuring clear lines of sight and seamless access to technology. Taking this holistic approach to the floorplan creates an atmosphere that supports inquiring minds and focused learning.

This spread: Manhattan table; Urban chair; Conductor lectern
Next spread: Manhattan table; Urban chair

Computer Lab

These days, few areas on campus are as important as the computer lab—a space that's all about the tech inside it. Fixed tables with mobile chairs allow students to work alone or rearrange seating for group work when needed. Power and cable management are cleverly engineered to keep things efficient while the learners become the tech-savvy workers of tomorrow.

This spread: Parkdale table; Urban chair
Next spread: Manhattan table; Eighteen5 chair

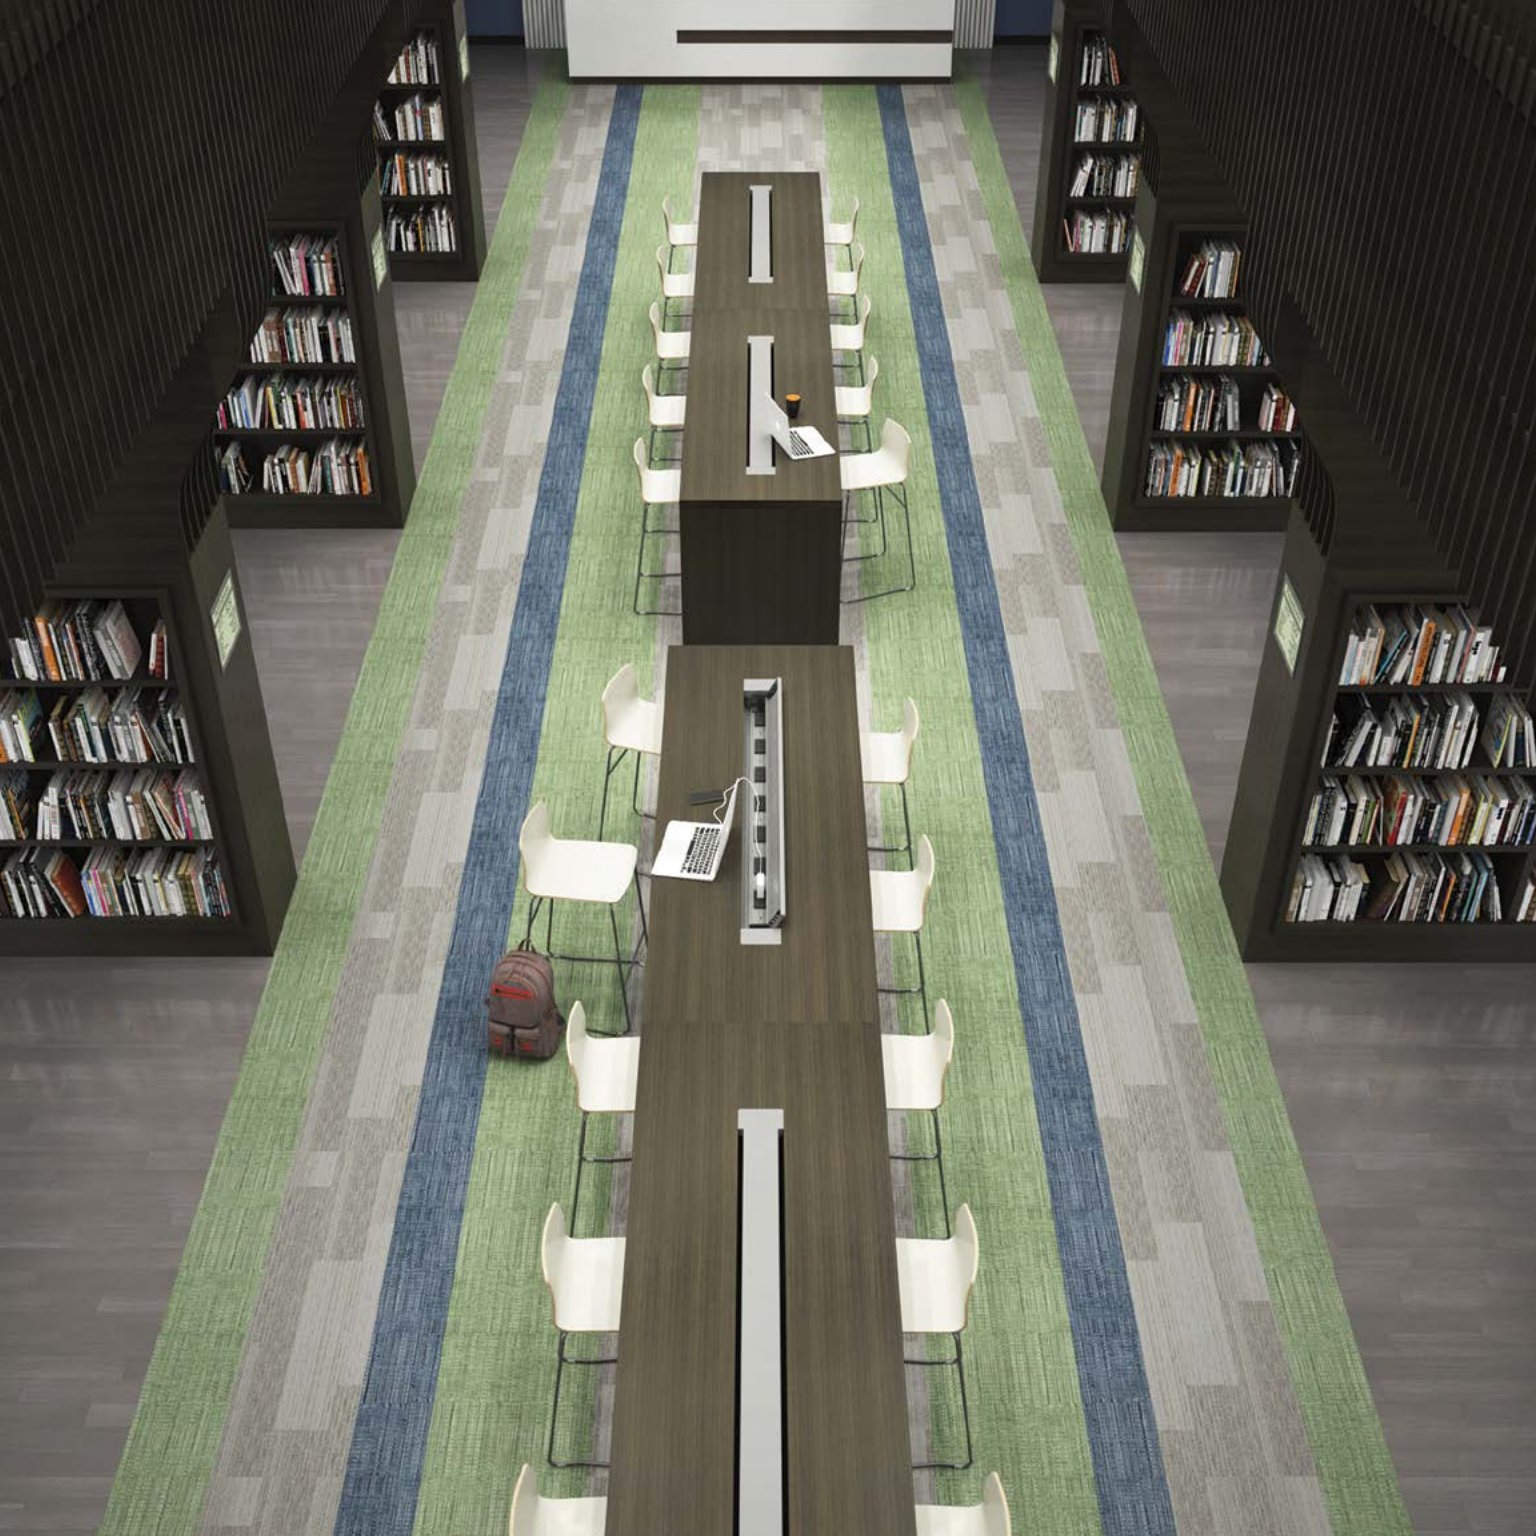

Lab & Makerspace

A hands-on approach to learning is what makerspaces are known for. Give students a functional, flexible facility by combining workbench-style tables, stools, and even a lounge area for team meet-ups. Choose durable materials to withstand the unique demands of a lab environment, complemented by ample, adaptable storage options to streamline the workspace. With the right planning, your makerspace can be a structured setting that encourages collaboration, creativity, and experimentation.

This spread: Factory table; Latch whiteboard; PostUp chair
Next spread: Factory table; Latch whiteboard; PostUp chair

Learning Commons

The library—more often referred to today as the learning commons—provides a refuge of quiet in dynamic learning environments. Adapting to meet today's learning styles, libraries provide powered-up spaces for students to plug in and get to work. Function, comfort, and style combine to create the perfect balance of collaboration, a cozy corner for reading, and a tech-enabled work surface.

Room B

Room C

Student Union

Whether for studying or socializing, creating a flexible student-exclusive space with multiple seating options allows for optimal comfort. And don't forget to give these spaces a serious pop of personality with a dash of school colors on the furniture's fabrics and finishes, helping students take pride in their campus.

This spread: Manhattan, Yorkville, Sidekick tables; Jazzy chair; Tailor Modular seating
Next spread: EndZone, Sidekick tables; PostUp chair; Tailor Modular seating; OneZone privacy booth

Atrium Study Space

A choice of functional meeting and touchdown solutions empowers learning between classes. Furniture in these spaces needs to stand up to frequent use and offer a variety of styles, allowing students to curate their ideal setup for any kind of work. Table heights and shapes influence the dynamic of team settings, while different seating solutions influence the amount of time students spend in that space. Whether they're diving into solo research or brainstorming as a team, providing choice in study spaces is the key to unlocking a world of productivity.

This spread: Manhattan table
Next spread: Docker Drum, Manhattan, Sidekick tables; PostUp chair; Tailor Modular, Bud seating

Corridor

No longer simply halls to rush through on the way to class, corridors are evolving into meaningful pit stops for students. Powered-up surfaces enable students to recharge devices while taking breaks, while soft-seating solutions provide a much-needed place to relax between classes.

This spread: Sidekick table; Tailor Modular seating
Next spread: EndZone table; Jazzy chair; Tailor Booth seating and table

Cafeteria

Taking cues from hospitality design, higher education dining facilities can create cozy atmospheres that focus on well-being by combining soft-seating lounge furniture with classic café-style tables and seating. Cafeterias can also be flexible spaces for students to focus on their own work or easily engage in group activities.

This spread: EndZone table; Jazzy chairs; Tailor Booth seating and table
Next spread: EndZone, Manhattan tables; Urban chair; Tailor Booth seating and table

Event Space

One design element is essential to every event hall: flexibility. Tables and chairs on casters make for effortless reconfiguration, while flip tops, folding legs, and stackable or nesting chairs allow for ample open space when needed. In just minutes, you can transform the hall from an alumni cocktail event to an impromptu exam room!

This spread: Post Legs table; Eighteen5 chair
Next spread: Yorkville table; Credenza; Conductor lectern

Faculty Office

Fostering strong relationships with professors is an important part of student success. Collaborative hubs help students benefit from one-on-one interaction with instructors—while still giving faculty the option of a private office.

This spread: Yorkville table; Tailor Freestanding seating
Next spread: Parkdale, Latch tables; Latch bookshelf; Jazzy, Eighteen5 chairs; Tailor Modular seating

Residence Hall Lounge

The ideal lounge fuses together comfort and durability. With Spec, you can bring the cozy vibes of home to campus without sacrificing the rugged strength needed for everyday student life. In these settings, tables and chairs must be able to handle everything from late-night study sessions to impromptu hangouts. It's all about creating inviting spaces that stand the test of time while providing the ultimate hub for students to unwind, connect, and thrive throughout their academic journey.

Warranty

[Back to Table of Contents](#)

We are pleased to provide the initial purchaser with a lifetime structural warranty against defects in design, construction, and materials.

Finishes and cover materials are warranted for two years, subject to normal wear and tear. Electrical and mechanical parts are warranted for two years.

Our warranty will not apply where there is evidence of alteration, misuse, negligence, or abuse. No warranty shall apply to COM (customer's own material) fabrics. During the warranty period, we will repair or, at our discretion, replace any product where we are satisfied that the product is defective. Decisions on warranty rest solely with Spec. All freight charges for items being returned for service must be prepaid by the customer. If a claim is accepted, we will refund the charges incurred.

Please note: the warranty may update at any time. Please consult specfurniture.com/lifetime-structural-warranty for the most current information.

Please note: Eighteen5, Twenty2, Snowball, and Urban chairs offer different color options for arms, backs, and back panels, where applicable. Please consult individual price lists for details. Jazzy laminate finishes differ from standard laminate finishes. Please see the Jazzy price list for details.
