**WHAT'S NEW** 2019

# Jazzy

## Tuned to Your Beat

A slim build heightens Jazzy's modern styling. The collection includes dining-, cafe- and bar-height designs. With a vast range of finish options, Jazzy can look as groovy or mellow as you wish. Choose from 76 Spectone finishes or chrome for the frame, and for the contoured shell, select a stain or go with matching or contrasting laminate.

# Docker

## Stepping Up to the Task

Docker caters to creative minds that love working together. Casual yet stylish, this collaborative table combines solid wood and metal to create a beautiful A-shape base. Available with or without casters, Docker scales up or down to fit any space.

When power is specified, Docker neatly conceals wires and cables in its leg.

# Askew

## Contemporary Meets Functional

With a thin-profile base, Askew's contemporary design adds function to meeting spaces and boardrooms. The name comes from a unique base shape that skews outward, creating a sense of space with its open design. Askew is available in a variety of large-scale lengths and widths.

# Tailor HD

## Residential Feel, Sturdy Frame

The residential look of the Tailor HD Lounge collection creates stunning environments while addressing the requirements of Behavioral Health settings. Available in one-, two- and three-seat designs—as well as bariatric models—this series comes standard with a wall-saving frame, while the unique polyurethane roto-molded base ensures durability and cleanability in tough environments.

# Calvin HD

## Heavy Duty Build that Doesn't Sacrifice Style

Sleek and sophisticated, Calvin HD's streamlined design creates an attractive silhouette in any tough public seating area. With a separate seat and back, the 21" wide chair is dynamic load tested to exceed 500 lbs, while the bariatric model can support more than 750 lbs, making Calvin HD a terrific addition to Spec's lineup of Behavioral Health products.
