Overall Height	32.00	Arm Height	25.50

Nesting 8"

Options:

Cal 133 Black Only

Frame Construction Constructed of high carbon content cold rolled seam welded flash controlled steel tubing free of crimping on all bends. Offered in 7/8" O.D. 11 Gauge tube. Stretcher bars are welded to the frame to provide seat support. All connections are metal to metal.

Seat The seat is a two part piece, made with from PP plastic. The bottom portion is reinforced with ribbs for added strength.

Back The back is made from PP plastic and mechanically fastened to the frame.

Foam Open cell cut foam is formulated displacing 25% of the existing non-renewable petroleum material with a sustainable plant based substitute. The foam performs as regular based cut foam and provides a 1.8 PCF density with no changes to the physical properties, comfort, and longevity of the foam.

Flame retardancy Foam provided is compounded to meet specifications of the Federal Motor Vehicle Standard MVSS302 and California Bulletin No. 117 (TB117-2013).

Arms The arm is constructed from molded glass filled nylon with an inner steel support, available in black.

Casters The caster is non-locking, twin wheel and made of a durable nylon pneumatically attached to a 5/16"- 18 threaded steel insert which is threaded through a 1/4" steel tab welded into the frame at the floor.

Load Test Exceeds BIFMA Seating Durability Test to 500 lbs
