

Model	EndZone
	2" End Panel
Depth	24", 30", 36", 42"
Length	72" - 216"
Height	30", 36", 42"

Standard Options:
Custom Heights Available

Tops
Laminate

Constructed of 1" NAUF (no added urea-formaldehyde) particle board (Phase 2 CARB compliant) core with a 2" built-up edge, covered and bonded with a water-based glue to a 1/16" high-pressure plastic laminate sheet on top and a plastic laminate backing sheet below for a sandwich top thickness of 1 1/8". The core is manufactured with 100% recycled material and is manufactured inside a FSC Certified manufacturing facility. The top density is 39 pounds per sq. in.

Veneer

Veneer tables are constructed of 1" NAUF (no added urea-formaldehyde) particle board (Phase 2 CARB compliant) core with a 2" built-up edge, covered and bonded with a water-based glue to a hand laid up flat cut veneer on top and bottom for a sandwich top thickness of 1-1/8". Veneers are selected with careful attention to grain matching and symmetry.

2" End Panel

The 2" thick End panels is made using two 1" thick 9-ply particle board core, covered and bonded with a water-based glue to a 1/16" high-pressure laminate sheet on top. End panels are secured to the table top using mechanical fasteners. End panels also come with recessed glides.

Undersurface Support Trough

The structural trough is made from bent sheet metal that has cutouts to allow for data/communication and power.

Edges

2MM Edge

2mm edges are made from pellet material that is melted and extruded through a die-head profile. The edge is glued to the core material and trimmed into place with an edge bander. 2mm Bio edge has a biobased content of 88% that is made from rapidly renewable corn; the portion of the corn used is a waste bi-product and therefore not taken from food stock. 2mm PVC edge is a polyvinyl chloride extruded plastic edge.

Optional

Rectangular Vertical Wire Manager

1/16" Extruded aluminum forms the door and the outer shell of the Vertical Wire Manager. The doorsnaps on to the outer shell. The Vertical Wire Manager is fastened to the End Panel with wood screws.
