

# BEHAVIORAL HEALTH SOLUTIONS

Balancing Function with Comfort

# At Spec, We've Been Leaders in Behavioral Health for More Than Two Decades

We've furnished countless facilities—supervised, semi-supervised and common areas—with designs that have care at their core and warmth in their style.

We consult with facility managers and caregivers to draw on their expertise, combining it with our own to create environments that are durable, inviting, customizable and, above all, safe.

**Tailor HD** Seat Upholstery: Momentum, Silica Leather, Chambray; Back and Arm Panel Upholstery: Maharam, Boundary, Allure; Foot: RAL 7037; Frame: RAL 7037.  
**Drum HD** Finish: Wilsonart, 7949K-18 Asian Night.

**Tailor HD (Front Cover)** Upholstery: Morbern Vitality Blonde; Foot: RAL 7037; Frame: RAL 7037.

## Humanizing the Most Secure Settings

Supervised and semi-supervised settings present demanding safety and durability challenges, and our experts have designed products with these considerations foremost, all accompanied by a lifetime structural warranty. Smooth edges, tamper-proof fasteners and optional added weight are integrated into a spectrum of attractive designs that cater to the different needs and styles of these environments.

**Dignity (Foreground)** Upholstery (Dark): Momentum, Epic, Azure; Upholstery (Light): Momentum, Silica Leather, Almond; Frame: Taupe.  
**Dignity2 (Background)** Upholstery: Momentum, Silica Leather, Almond; Arm Cap: Taupe; Frame: Silver.  
**Oval HD** Finish: Wilsonart, 7938-38 New Age Oak; Kickplate: HOMAPAL 441 Brushed Natural Aluminum.

# Soothing and Secure

Don't be fooled by the residential feel—Dignity and Dignity2 are soft-seating solutions designed specifically for Behavioral Health applications.

## Versatile Design

Freestanding or connected, both Dignity and Dignity2 offer several widths and can be configured in multiple ways to accommodate individual and group needs.

## Considered Care

For easy cleaning, choose laminate on the inner arm panels to maintain a gap between the panels and the seat, or choose upholstery to reduce the gap. Arm panels on Dignity2 can be extended to the floor or specified as wall-saving.

# Sturdy, Safe and Durable

Engineered to last, the entire Dignity Series features springless seats and weighted construction to ensure comfort and security, while the contoured design eliminates sharp edges for a safer, more welcoming space plan. Complementary heavy-duty oval, drum or cube tables can be specified with additional weight or solid-surface tops.

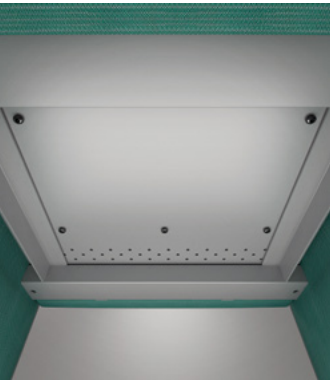

**Dignity2 (Shown with Extended Side Panels)** Upholstery: Momentum, Row, Oasis; Side Panel Laminate: Wilsonart, 7960K-18 Studio Teak; Arm Cap: Sterling Grey; Frame: RAL 7038.  
**Drum HD** Top: Corian, Savannah; Side Finish: Wilsonart, 7960K-18 Studio Teak.

Self-skinned, one-piece polyurethane arms on Dignity chairs provide a softer, residential look. Dignity arms are available in black, sterling grey or taupe.

Optional KYDEX® arm caps on Dignity2 are available in black, sterling grey or taupe—and they offer an extremely durable, pick-proof solution that withstands harsh cleaning products.

Specify a steel plate on the underside of Dignity or Dignity2 designs to eliminate all pass-throughs. The steel plate comes solid or with small perforations between the seat and back to avoid trapping fluids.

An optional wall-saving frame is available on Dignity2 designs. For ease of movement, specify the Dignity Dolly.

**Tailor HD** Upholstery (Blue): Morben, Vitality, Hot Spring; Upholstery (Yellow): Morbern, Vitality, Blonde; Foot: RAL 7037; Frame: RAL 7037.  
**Drum HD** Top: Corian, Blue Spice; Side Finish: Wilsonart, 7949K-18 Asian Night.

## Tailor the Look

The residential look of the Tailor HD Lounge collection creates stunning environments while addressing the requirements of Behavioral Health environments. Available in one-, two- and three-seat designs—as well as Bariatric models—this series comes standard with a wall-saving frame. A unique, one-piece, rotationally molded polyethylene foot provides a tamper-proof, waterproof, durable base for Tailor HD.

## Practical, Yet Residential

Designed and built to last, Tailor HD components are all replaceable. Polyurethane arm caps, available in black, sterling grey or taupe, can be specified to increase durability. Mix fabrics between the seat, back and arms at no upcharge.

**Tailor HD** Seat and Back Upholstery: CF Stinson, Sentry-HC, Armada; Arm Panel Upholstery: CF Stinson, Sentry-HC, Midnight; Arm Cap: Sterling Grey; Foot: RAL 7037; Frame: RAL 7037.  
**Drum HD** Finish: Wilsonart, 7949K-18 Asian Night.

Tailor HD comes standard with a unique, one-piece, rotationally molded polyethylene foot that is extremely durable, tamper-proof, waterproof and capable of withstanding the harshest of cleaning solutions. Standard in grey to match RAL 7037.

Tailor HD's arm panels extend fully to the floor to address ligature concerns while ensuring a wall-saving design.

A standard steel plate on the underside eliminates all pass-throughs. The steel plate comes standard with small perforations between the seat and back to avoid trapping fluids.

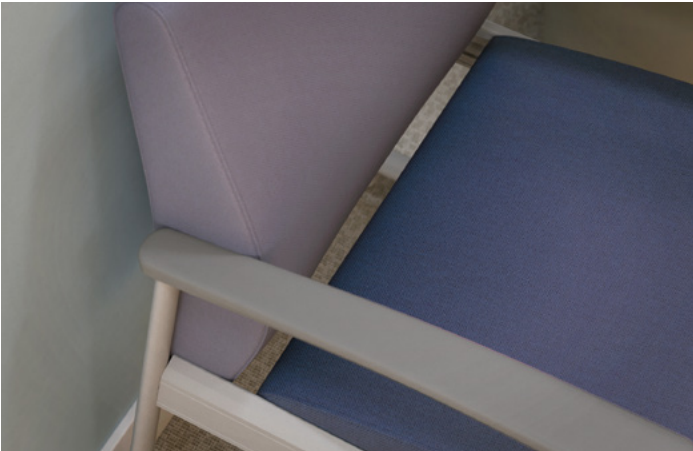

**Calvin HD** *Seat Upholstery:* CF Stinson, Sentry-HC, Patrol; *Back Upholstery:* CF Stinson, Sentry-HC, Aura; *Arm:* Sterling Grey; *Frame and Side Rail:* Silver.  
**Drum HD** *Finish:* Wilsonart, D92-60 Dove Grey.

Calvin HD comes standard with a fully welded, wall-saving, steel-frame construction.

Field-replaceable seats, backs and arms make maintenance simple and efficient.

## Style, Streamlined

Sleek and sophisticated, Calvin HD's streamlined design creates an attractive silhouette in any public seating area. With a separated seat and back, the 21" wide chair is dynamic load tested to exceed 500 lbs, while the bariatric model can support more than 750 lbs. Specify additional weight to reduce the chair's mobility.

## Flexible Engineering

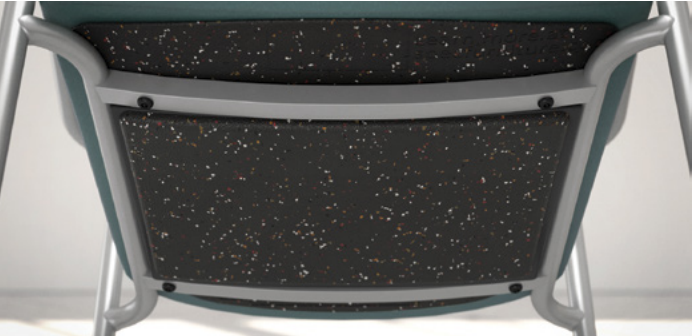

Snowball HD may share the friendly style of general purpose seating found in cafeterias, game rooms and examination rooms, but you can rest easy: with a dynamic load capacity in excess of 500 lbs and a fully welded frame, the series is built with Behavioral Health requirements in mind.

**Snowball HD** *Upholstery (Blue):* Morbern, Vitality, Hot Spring; *Upholstery (Green):* Morbern, Vitality, Willow; *Frame:* Silver.  
**Trumpet HD** *Top Finish:* Wilsonart, 7937-38 River Cherry; *Edge:* 2MM River Cherry; *Base:* Silver.

Snowball HD's optional DuraSpec polyurethane seat is extremely durable. Available in black or grey, it is designed to be both more comfortable than hard plastic and capable of withstanding the harshest of cleaning solutions. Specify Snowball HD with an 18" or 22" seat width, in designs with or without arms.

With a 100% recycled plastic seat pan and tamper-proof fasteners, Snowball HD has no exposed staples. Specify additional weight within the seat pan to restrict movement.

# Safety That's Just Right

In semi-supervised settings, furnishings need to offer flexibility while still maintaining a high degree of safety and durability. Spec's product lines rise to the challenge by offering contemporary styling and robust design that meet these unique needs, helping to make patients, visitors and caregivers feel at ease. Comfort and versatility are always top of mind, creating spaces filled with warmth and positivity.

**Hardi Rocker** *Finish:* RAL 7037.  
**Tailor HD** *Upholstery:* CF Stinson, Cirro, Thames; *Foot:* RAL 7037; *Frame:* RAL 7037.  
**Snowball HD** *Seat Upholstery:* Momentum, Canter EPU, Ink; *Back Upholstery:* CF Stinson, Cirro, Thames; *Frame:* Black.  
**Disc HD** *Top Finish:* Wilsonart, 1595-60 Black; *Edge:* 2MM Black; *Base:* Silver.

**Hardi Lounge Armless** *Finish:* RAL 5014.  
**Hardi Lounge with Arms** *Finish:* RAL 7015.  
**Oval HD** *Finish:* Wilsonart, 7850-60 Beigewood; *Kickplate:* HOMAPAL 441 Brushed Natural Aluminum.

# Style for Challenging Spaces

The Hardi Series’ award-winning design offers the highest level of safety in Behavioral Health spaces. A single-piece, rotationally molded polyethylene construction makes it extremely robust and a breeze to maintain. An elegant contour on Rocker, Dining, Lounge and Stool designs creates a welcoming environment for both patients and caregivers while reducing ligature and safety concerns.

# Virtually Indestructible

From cafeterias to game rooms, the Hardi Series inspires social gatherings while seamlessly integrating with Spec’s lineup of tables. Featuring additional weight and tamper-proof fasteners, Heavy Duty tables can be specified with Spec’s 2mm pick-proof edge, available in over 45 colors.

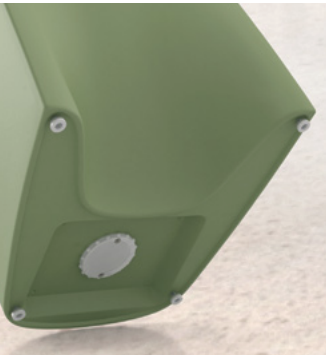

**Hardi Dining Armless** *Finish:* RAL 6021.  
**Hardi Dining with Arms** *Finish (Dark Grey):* RAL 7015; *Finish (Blue):* RAL 5014.  
**Disc HD** *Top Finish:* Wilsonart, D354-60 Designer White; *Edge:* 2MM RAL 9016; *Base:* Silver.

Nylon glides are optional. Hardi designs specified with glides can be fastened to the floor or ganged together.

Shallow hand grips make Hardi designs difficult to pick up yet easy to adjust while seated.

All Hardi designs can be weighted on site with sand, if desired. A spun-in cap on the underside closes the opening, secured with tamper-proof fasteners.

## Soothing and Calm

Create soothing patient spaces effortlessly with the Hardi Rocker—a comfort to the eye and to the user. With a friendly, soft contour and a scale that offers a sense of confidence, its subtle rocking movement provides a calming effect.

# The Beauty Is in the Details

At Spec, we view Behavioral Health as a continuum of care. In collaboration with designers, facility managers and caregivers, we have developed—and continue to develop—robust Behavioral Health product lines that respond to the needs of patients within these organizations, and in more generalized health and wellness facilities. All of our seating designs have been dynamic load tested to at least 500 lbs. Our other standard design considerations can be seen here.

Several designs feature optional weighting to reduce ease of movement.

Tamper-proof fasteners are standard on all designs.

Zippers are secured and pulls are removed.

Seats feature springless construction.

Customized solutions are available.

Separate seats and backs are available on most models.

Nickel-plated glides are secured with Loctite®.

Optional floor mounting straps are available.

All metal connection points are fully welded.

# Make It Your Own

Spec has been developing solutions for Behavioral Health facilities throughout North America for over 25 years. All of our products are built with safety and durability in mind, and we offer many options to meet the needs of these environments, such as CAL 133, antibacterial and antimicrobial finishes, and moisture barriers. We recognize the unique challenges that Behavioral Health facilities present to both caregivers and the design community. Contact us today to discuss how Spec can help tailor a solution to meet your specific requirements.

## Solid Surfaces

Table tops are available in solid surfaces to assist with infection control.

## Laminates

Select from our 15 standard laminates, or choose from any standard Wilsonart, Nevamar, Formica, Arborite or Pionite laminates at **no upcharge**.

## Hardi Finishes

Create a welcoming environment with Hardi by choosing from six soothing colors that match our Spectone RAL offering.

## Metal Finishes

Frames can be finished in 76 Spectone colors from our line of powder epoxy coatings, including five textured finishes.

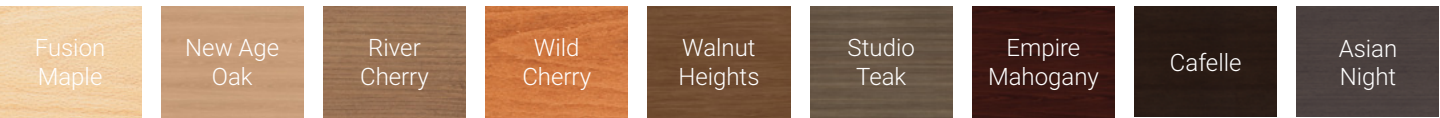

## Arm and Arm Cap Finishes

Choose from three standard colors.

## Wood Arm Cap Finishes

Wood arm caps are available in nine standard stains. Stain-to-match is available at no upcharge.
