# Suited by Design

Tailor's elegant linear frame and standard tapered arms are balanced by a soft, contoured back. The Freestanding models include single, bariatric, and two- or three-seat sofas, ensuring design continuity throughout your space.

Square and rectangular occasional tables seamlessly complement one another and are available in open or fully closed designs. A power module can be specified on closed table designs so you can be productive even while you lounge.

# A Creative Solution for Modern Workspaces

The casual atmosphere of a traditional North American diner can enliven your workspace with Spec's Tailor Booth. Typically used in cafeteria settings, these booth and wall-adjacent seating solutions are increasingly finding their way into modern collaborative spaces. Available in midback or highback models, the latter is recommended for spaces where privacy and reduced background noise are key.

Tailor Booth Tables are available with either square or rectangular metal bases, and they sit flush with Tailor's two- and three-seat Booth designs.

Seat upholstery is sewn together for easier maintenance. Individually sewn seat upholstery is also available upon request.

For a true back-to-back fit, a non-wall-saving frame comes standard.

# Support the Sidelines

Tailor Bench integrates seamlessly with the entire Tailor seating and table lineup. Our benches make for comfortable ancillary seating in lounge areas, corporate receptions or hallways.
