Sophisticated and Reliable

Uptown or downtown, Urban’s contemporary design and durability lend themselves to any workplace environment—from warm and friendly healthcare settings and educational facilities to sophisticated corporate offices and training rooms.

The metropolitan look of Urban is available in four distinct styles, which combine sleek, durable plastic or softer, upholstered seats and backs. Any way you style it, Urban’s dynamic nature aims to please.
Both Form and Function

Corporate environments can benefit from Urban’s flexibility in both style and function. A sleek plastic back panel covers the back brackets, making Urban aesthetically clean and a breeze to maintain. Casters add mobility for easy collaboration while keeping Urban’s sophisticated appearance intact.

Stacks of Style

Urban is made for convenient storage when not in use. Chairs stack neatly on a custom-made dolly. Dynamic load tested to 500 lbs and available as either 18” or 22” wide, Urban is a facility managers’ choice for classrooms, training rooms and other multi-purpose areas.
Innovative Seat Design

Unique to Spec, the polyurethane DuraSpec seat is a popular choice in clinics, cafeterias, food courts and other areas where frequent cleaning takes place. More comfortable than a traditional plastic seat, DuraSpec is available on the entire Urban product line.

The DuraSpec seat is available in Black and Sterling Grey. Made from a 100% recycled plastic core with overmolded polyurethane, the seat is easy to clean and extremely durable.

Where connected seating is desirable, join Urban chairs with ganging brackets or spacer tables.
